

Project: Bundoora Family Clinic Digital Prescription and Medication Tracking Management System (DPMTMS)

NFR No.	Requirement	Category	Comment
NFR1	The system shall authenticate users within three seconds under normal operating conditions.	Performance	Ensures fast access for patients and clinic staff.
NFR2	The system shall provide an intuitive and user-friendly interface.	Usability	Reduces training time and user errors.
NFR3	The system shall maintain at least 99.9% availability during clinic operating hours.	Reliability	Ensures uninterrupted access to services.
NFR4	The system shall support at least 200 concurrent users without significant degradation.	Scalability	Supports future growth.
NFR5	The system shall encrypt patient and prescription data during storage and transmission.	Security	Protects confidential medical information.
NFR6	The system shall automatically back up the database daily.	Reliability	Prevents data loss.
NFR7	The system shall recover from failures within 30 minutes.	Availability	Minimizes service disruption.
NFR8	The system shall enforce role-based access control.	Security	Restricts unauthorized access.
NFR9	The system shall validate all user input before processing.	Data Integrity	Maintains accurate data.

NFR No.	Requirement	Category	Comment
NFR10	The system shall generate audit logs for all critical activities.	Security	Supports accountability and compliance.
NFR11	The system shall be compatible with modern web browsers.	Compatibility	Provides consistent access.
NFR12	The system shall support responsive access from desktop, tablet, and mobile devices.	Usability	Improves accessibility.
NFR13	The system shall use secure password hashing.	Security	Protects user credentials.
NFR14	The system shall allow software updates without affecting stored data.	Maintainability	Simplifies maintenance.
NFR15	The system shall display meaningful error messages.	Usability	Improves user experience.
NFR16	The system shall maintain data consistency during concurrent transactions.	Data Integrity	Prevents conflicting updates.
NFR17	The system shall comply with healthcare privacy regulations.	Privacy & Compliance	Protects patient confidentiality.
NFR18	The system shall retain audit logs for future review.	Maintainability	Supports investigations and compliance.

NFR No.	Requirement	Category	Comment
NFR19	The system shall optimize database queries for efficient performance.	Performance	Improves response time.
NFR20	The system shall notify administrators of critical system failures.	Reliability	Enables timely maintenance.
NFR21	The system shall support modular architecture for future enhancements.	Maintainability	Facilitates expansion.
NFR22	The system shall synchronize data accurately across all modules.	Data Integrity	Ensures consistent information.
NFR23	The system shall ensure secure communication using HTTPS.	Security	Protects data in transit.
NFR24	The system shall scale to support additional clinics if required.	Scalability	Supports organizational growth.
NFR25	The system shall preserve system performance under peak workload conditions.	Performance	Ensures stable operation during busy periods.
